COURSE DESCRIPTION

The end-to-end process of materials and service management within the supply chain encompasses Planning to Procurement, and all the way to Payment. In today's business context, the best practices of integrating and interlinking these functions have become a company's potential source of competitive advantage.

Different models have evolved since the development of Materials Requirement Planning all the way to the more recent Integrated Business Management framework.

This seminar provides the participants with a comprehensive understanding of all the components of the P2P process. The training will be delivered through lecture, facilitated sharing of actual experiences, case studies and group discussions to enable the participants to apply the lessons learned when conducting audit work.
